EDUCATION

Master of Business Administration, Rady School of Management 06/2027
University of California - San Diego, CA, GPA 3.93/4.0
Relevant Coursework: Innovative Product and Program Management, Marketing, Business Analytics, Managerial Economics, Accounting, Finance, Leadership, Data Science with LLMs

Bachelor of Science in Computer Engineering (with High Honors) 05/2021
University of Illinois at Urbana-Champaign, Champaign, IL, GPA 3.90/4.0
Professional Affiliations and Leadership: Women in ECE (Mentorship Program Lead), HKN ECE Honor Society

EXPERIENCE

Virtual Events Program Manager, Project Management Institute - San Diego Chapter, CA 04/2026 - Present
- Managed project execution of 4+ events by owning timelines, and speaker dry runs to achieve milestones on schedule
- Drove post-event reporting and stakeholder communications, reconciling attendance data, analyzing feedback surveys, and providing status updates to leadership of Programs to inform program strategy

5G RF Software Engineer, Qualcomm Technologies Inc - San Diego, CA 07/2021 - 03/2025
- Designed and executed end-to-end testing strategies for 5+ features, ensuring compliance with 5G standards and presenting team's progress for 3 new features in organization-wide design reviews to secure stakeholder alignment
- Coordinated with cross-functional teams to scope and deliver 15+ customer requests by evaluating requirements, creating interprocessor coding solutions in C/C++, and aligning on release dependencies and test plans
- Drove cross-team communication during product bring-up, supporting launch of 3 global 5G chipsets impacting 50M+ end users while delivering milestones under tight schedules across 5+ stakeholder teams
- Organized training sessions across 6 teams to optimize testing procedures, increasing productivity by 20%
- Utilized extensive problem solving and strategic thinking to initiate and lead a security and reliability program with 12 engineers, resolving 200+ issues spanning 50+ files in codebase within 2-week delivery cycles

PROJECTS

Team Lead, Product Management Final Project - *Planet Fitness Digital App* 03/2026 - 06/2026
- Defined technical requirements and architecture for a new AI-powered gamified feature (streaks, XP) on the existing Planet Fitness app to improve member retention and engagement
- Created a 4-feature roadmap using an impact-effort framework projected to double daily active users within 6 months; this included daily streaks, AI customized workout, and buddy matching based on user location and activity
- Led 3 rounds of usability testing (9 sessions), identifying 3 fixes including a privacy redesign for peer-matching, reaching 9/9 task completion and de-risking a $61.8M revenue roadmap

Team Editor, Rady Action Project - Qualcomm Technologies Inc. 03/2026 - 06/2026
- Delivered a market analysis to evaluate on-device AI silicon strategy against cloud-based LLM technology alternatives through collaboration with a 6-member cross-functional team
- Translated AI PC hardware benchmarking (a 30 tokens/s interactive threshold across 4 model sizes vs. 3 competitor chipsets) into the technical case for the recommended NPU architecture
- Synthesized technical, financial, and market findings into an integrated pricing and business model recommendation for Qualcomm's SVP & GM of Compute and Gaming, presenting to client stakeholders and Rady faculty

SPECIALIZED SKILLS

Technical Skills: Agile, Scrum, SQL, Notion, Claude Code, Asana, Jira, Excel, MS Office Suite, BigQuery
Programming Languages/Skills: C, C++, C#, Python, Java, 5G, Linux, Windows, MacOS, Git, Operating Systems
